

re:mov Silicone & Adhesive Remover

Contractors, Stop wasting valuable time!

The money you save in labor costs and lost materials will more than pay for this product. Items that once were discarded can now be reused. The safety factor is also an important consideration, we have replaced many volatile and toxic chemicals with re~mov™. This has made for a safer work place, saving you money with less down time

re~mov™ will remove the following quickly and safely:

Polyurethanes; products such as , Vulkem®, Sonneborn® NP-1, 3M's® 5200 Marine adhesive sealant, Sikaflex® 292, 255, 241, uncured or cured

GE®, Dow Corning® 941, 940, DAP®, 3M®, Sherwin Williams®, and other Silicones

Contact Adhesives; Pionite®, P-98-T Contact Adhesive, 3M's® Super77, Dap® Weldwood and most other adhesives

3M® Fire Barrier Sealant CP 25WB, 3M® Fire Barrier Sealant IC 15WB

Liquid Nails®, Dap Weldwood®, OSI RT600® Roof tile adhesive

Water-proofing materials, Insulation Foam, Removes tape, double face tape

Removes the protective coating from Lexan®, also removes Blue Max® and other protective films

Safely removes silicone, polyurethane, adhesives and chewing gum from carpets, upholstery or clothing

re~mov™ is safe on the following surfaces:

Glass, Reflective glass, Mirrors, Plexiglas / polycarbonates, most plastics, fiberglass / gel coat.

Wood: furniture, floors, cabinets, varnished, urethaned, powered coat, or painted surfaces

Stone surfaces / cultured marble / Tiles, Formica, Corian®, Ceramics, Enamel and Porcelain surfaces

Most Carpets, fabrics, most vinyl and upholstery, clothing, metals, and tools.

re~mov™ will not harm most surfaces and finishes. re~mov™ is safer than other solvents with regard to skin contact, harmful vapors and flammability.

re~mov™ will not dissolve, harm, or denature silicone if left standing and not worked.
